NEWS OF KANSAS.

A Brakeman Rescues a Mother

hended at Eureka.

OTHER STATE NEWS.

K. U. Football Dates for Next
Fall Are Arranged.

OTTAWA, June 8.—Passengers who
came in on the "Emporia plug" report a
thrilling scene at Le Loup, in which a
woman and babe were placed in jeopar-
dy of life, and saved through the quick-
witted action and bravery of Brakeman
Mitt Deen.

They heard a succession of thrilling
screams, and saw a woman holding a
babe and a man apparently being drag-
ged by the cars along the platform.
The man, who wore the cap of a brake-
man, was evidently endeavoring to re-
lease the lady, whose garments had been
caught on the iron work; it was a desper-
ate struggle, for several times the two
persons were almost dragged from their
feet to be rolled against the wheels; but
the plucky man held fast, and finally the
lady's dress skirts gave way at the waist
and she was dragged into security. A
boy had in the meantime sprung to the
rescue and caught the baby from its
mother's arms.

Conductor Scott had signaled his en-
gineer to go ahead before the lady had
time to get off the steps. Her dress
caught on some projection, and but for
Brakeman Deen she would have been
whirled under the wheels.

NEXT FALL'S FOOT BALL.

Manager Mitchell Arranges Several Dates
for the K. U. Team.

LAWRENCE, June 8.—Mr. Rolla Mit-
chell, manager of the Kansas university
football team, announces that a game
has been arranged with the Illinois uni-
versity team for two weeks prior to the
regular season on McCook field in this
city. This will bring the game on Octo-
ber 19. The game that has been played
for the past two years with Michigan uni-
versity team could not be arranged this
year because of the trip east the Ann
Arbor boys have arranged to make. In its
place, however, a game will be arranged
to take place at Kansas City between
Kansas university and either the Minne-
sota or Chicago university team. Both
are willing to play and the game will be
played. The Varsity team has also re-
ceived an offer from the Leland Stanford
university team to visit California at
Christmas time, for a couple of games,
and this trip with a stay of a week will
also probably be arranged.

CATTLE THIEVES AT EUREKA.

They Steal Sixteen Head and Ship Them to
Kansas City.

EUREKA, June 8.—The arrest and im-
prisonment here of Dave Herrick and F.
H. Whitley for cattle stealing will, it is
believed, be the means of breaking up a
gang which has been operating in this
county for some time and giving annoy-
ance.

Whitley and Herrick took sixteen
head of cattle out of the "Lone Tree"
pasture of Hardy & Ravenswood of this
county last Sunday night, drove them to
Olpe and loaded them Monday night and
shipped them to Kansas City.

J. H. Lamps, a former resident of
Eureka, who is a salesman, suspected
something was wrong and telegraphed to
captain Hardy asking about it.
Before they found out whether any
cattle were missing Whitley had been
taken into custody at Kansas City and
confessed. He implicated Herrick and
a man named Harrington. Herrick was
arrested. Harrington is supposed to be
fugitive.

The cattle were shipped back from
Kansas City to Hamilton.

Killed By a Broken Wheel.

INDEPENDENCE, June 8.—W. M. Brown,
one of the workmen at the Sad Iron fac-
tory, was instantly killed while at work
at a polishing wheel about two feet in
diameter, covered with leather, and re-
volving at the rate of about 2,500 revolu-
tions per minute. The leather covering
by some means parted, and the loose end
struck him with terrific force over the
heart. In fact, so rapid were the revolu-
tions that he was struck a number of
times before he could fall.

Attempt at Train Wrecking.
ATCHISON, June 8.—An attempt was
made yesterday by unknown parties to
wreck the B. & M. passenger train which
leaves Atchison for the north shortly be-
fore 12 o'clock. A big tie was placed
across the rails in a place where it would
not have been observed until the train
was upon it, about five miles north of
Atchison. Henry Meier, a farmer, hap-
pened to be passing, observed it and
took it off the track.

Has Wichita 21,000 or 27,000?

WICHITA, June 8.—The postoffice de-
partment has made quite a revelation
concerning the population of Wichita.
Their figures indicate that the city has at
least 27,500 people, although the figures
given by Enumerator Caldwell do not go
that far by a long way. The figures of
the entire population of the city as re-
turned by Mr. Caldwell are 21,700. The
figures of the enumerator made by the
postoffice department for adults alone are
19,386.

Pratt Bank Cashier Drowned.

PRATT, June 8.—Gust Carlsson, cas-
hier of the First National bank at this
place, was drowned at Waldock's grove
last Thursday. He went in bathing and
was taken with the cramps. Judge J. C.
Ellis dived to the bottom of the lake and
brought up the body, but too late to re-
vive him.

Rev. J. H. Hopkins to Leave Atchison.
ATCHISON, June 8.—Rev. John Henry
Hopkins will leave Atchison. The re-
port is that he has accepted a call to the
pastorate of Christ Episcopal church,
St. Joe. Rev. Mr. Hopkins came here
in April, 1873. It is understood he will
leave for St. Joe about July 1.

THE GREAT RELAY RACE.

Time Between New York and Chicago Six
Hours and Forty-Seven Minutes.

NEW YORK, June 8.—The great exhi-
bition of long distance riding in the his-
tory of cycling between Chicago and
this city terminated at 1:56 o'clock this
morning at the junction of Sixteenth
street and the Boulevard.

The great race, which required a great
deal of careful preparation, started from
Chicago Wednesday morning at 9 o'clock
and was to cover 1,000 miles intervening
between that city and New York. The
record has been broken and the distance
covered by six hours and forty-seven
minutes better time.

In organizing this relay, a departure
was made by a distinction in the colors
worn by the riders. The military was
represented by blue and postal service by
red.

Mr. McMad, Postmaster Dayton's pri-
vate secretary, received the message by
the red forwarded by Postmaster Heeling
of Chicago, and represented the post-
office department, and 47 minutes later
Gen. Miles received from the blue the
message from Gen. Merritt.

It all required over 500 riders and
substitutes to carry the message.

FORGED CALDWELL'S NAME

A Leavenworth Colored Man Tries to
Bounce the Tonganoxie Bank.

LEAVENWORTH, June 8.—Geo. Lewis,
the notorious forger, has not yet been
arrested, but the officers of the law are
on his trail. He tried to bounce the Ton-
ganoxie bank out of \$300, as the follow-
ing will show:

LEAVENWORTH, Kas., June 4, 1895.

Cashier Tonganoxie State Bank, Tonganoxie,
Kansas.

MY DEAR SIR:—I have just mailed to
Mr. David J. Conley my personal check
No. 20, on the Manufacturers' National
bank of this city for \$300, which I wish
you would be kind enough to cash when
he presents it to your bank. I notify you
of this issue, as he has an invalid wife,
and had to sell me a piece of property he
owned in this city to raise the money to
send her away for treatment, and as he is
a stranger in your city I want to remove
any cause that might make him enter-
tain any delay in getting his money. He
is a colored man. Yours very truly,

ALEXANDER CALDWELL.
Lewis no doubt became familiar with
Mr. Caldwell's handwriting while in the
Kansas penitentiary, as Mr. Caldwell had
his wagon works there, and the forgery
of the name would deceive any one.

The cook should examine carefully
the label of the baking powder and see
that she is not imposed upon. If the
grocer sends anything but the Royal,
send it back, as one cook did five times
until she got the Royal. The only safe
way is for the cook to have the things to
work with, and the Royal is not only
the finest but the most economical to
use because it goes so much further.

WILL PUSH THE FIGHT.

A National Free Silver Democratic Con-
vention Will Be Called.

SPRINGFIELD, Ill., June 8.—It is no
longer a secret that the Illinois silver-
ites, under the leadership of Governor
Altgeld and William H. Hinrichsen, in-
tend to cut loose from the present na-
tional Democratic organization and form
a new Democratic free silver party. The
plans were laid months ago, and so far
everything has worked smoothly in the
interests of the managers of the new de-
partment. The echoes of the state con-
vention held recently died away when Hin-
richsen declared that the state com-
mittee would now start in on the
national work.

"If the national committee refuses to
call a national Democratic convention,"
Mr. Hinrichsen said, "we shall call on the
state committees of the various states to
act with the Illinois committee in calling
such a convention. The result of such a
national conference will be the same as
that of our state convention. It will unify
the party and leave the gold men in a
hopeless minority."

This bold utterance is backed up by
Governor Altgeld, who said that the call-
ing of a national convention was the
original purpose of the men who called
the Illinois silver convention.

"I was the originator, or rather, one of
the originators, of the national con-
vention scheme," the governor said, "and I
did everything in my power to secure its
adoption. We are not content with sim-
ply expressing our convictions. We are
going to fight for them and push the
fight all along the line."

The national committee will be re-
quested to call a national convention, but
it is not dreamed that it will accede to
the request. Neither Chairman Hinrich-
sen nor Governor Altgeld expects it to.
Then Mr. Hinrichsen will ask the various
state committees to join with him in calling
such a convention.

Wherever a state committee re-
fuses to join the call for a state con-
vention, the Illinois committee will be re-
quested to issue a call for a state con-
vention to select delegates to the national
convention. In other words it is the
programme to ignore the national com-
mittee and all state committees that do
not fall in line and call a national silver
convention, which is expected to re-
organize the party and take the reins of
organization in its own hands. This,
of course, means the disruption of the
Democratic party. The leaders in the
movement have now gone too far to re-
treat.

Twenty-four of the national com-
mittee are opposed to the free coinage
idea, twenty-two favor free silver, while
the views of four are not known.

BRITISH IN DANGER.

Tribesmen of Chitral Threaten to Take
English Troops.

CALCUTTA, June 8.—Dispatches re-
ceived here from Simla say that the
tribesmen of Chitral are again threat-
ening to take the British troops. A body
of 500 tribesmen is collected in the
vicinity of Dargal and the British are
preparing for an attack.

Later dispatches from Simla say that
a body of Shikharis has surprised a vil-
lage twenty miles from Fort Sandeman
in the Zhoib country and killed a British
lieutenant and seven men.

IDA B. WELLS IN TOWN.

The Agitator Against Lynching of Black
Men Visits Topeka.

Perhaps the one colored woman on
earth who has a world wide reputation
as a writer, lecturer and reformer is Ida
B. Wells, who is in Topeka this after-
noon to lecture at the A. M. E. church at
Seventh and Topeka avenue this even-
ing.

Her specialty is agitation against
lynch law in the south and she is mak-
ing a bold fight.

Miss Wells is of medium stature. Her
eyes are keen and black and her dress
tasteful. She appears to be a thoroughly
educated woman, speaks with precision
and decision, is never at a loss for a
word and is always sure of her utter-
ances. Withal she is a very agreeable
young colored woman—young because
she does not look over twenty-six, though
she admits she is thirty-two.

A JOURNAL reporter found her at the
home of Nick Childs on Quincy street,
where several of the most prominent
colored people of the city have met her
today.

She was willing to talk on the subject
in which she is so deeply interested.

"It is my life work," she said, "and I
have studied it well. The facts have been
so distorted that the people in the north
and elsewhere do not realize the extent
of the lynchings in the south. Since
1882 2,000 colored people have been
lynched in the south. The number has
steadily increased since the war until
in 1894 it reached 200; four of
those were women and three of them

IDA B. WELLS

were burned. People in the north are
led by the Associated Press reports, and
the telegraph, which of course are owned
in the south by the people of the
south, that all these lynchings are to ex-
piate atrocious crimes on women and
children. I have indisputable evidence
to prove that that is not so.

"I think a very good medium is the
negro's behavior in the south during the
war. The white men were at the front
fighting to keep the colored man in slav-
ery. The very colored man he sought
to injure was left at home to take care of
the white man's wife and children, and
there was not one breach of trust, not
one.

"I was forced into this work by the
lynching of three of my personal friends
at Memphis, Tenn., on the 9th of May,
1892. I had just teaching school then,
and had established in successful opera-
tion a newspaper which we called the
Free Speech.

"The three men lynched were respect-
ed grocersmen. Sneak thieves had
made an attempt on their property and
they resented it by firing on them. It
was time to teach the niggers a lesson,
the white men said, and they took the
colored men from the jail and lynched
them. The paper referred to them as
three colored toughs. In the next issue
of my paper I printed an editorial de-
nouncing the lynchings and the officers
that allowed it.

The daily papers advised that I be lynched
and a committee waited on me, but I
had gone to New York. They sacked
the office, chased my business manager
out of the city, and I was informed that
if I came back I would certainly be
lynched, as the trains were being
watched. I have not been back, but I
immediately began my crusade against
lynching in the south and I shall con-
tinue it. Anti-lynching clubs are being
formed all over the United States where
I have been for the purpose of educat-
ing the people on the subject. I have
confidence enough in the American peo-
ple to believe that if they are once ac-
quainted with the exact facts the prac-
tice will be stamped out.

"I could tell you of hundreds of lynch-
ings that have occurred and the facts
distorted that I know all about myself,
having visited the scenes and investigat-
ed them thoroughly."

Miss Wells has issued several books
the latest being A Red Record, Tabu-
lated Statistics of Lynching and Their Al-
leged Causes in the United States."

She has edited several papers and has
been employed to do special writing
along the line of her work for many of
the leading newspapers of the world.

She has lectured through Europe and
was received by the queen of England.
"I am occasionally threatened from
Memphis to this day with death if I do
not cease my work against lynching,"
she said.

"Does it scare you any?" asked the
reporter.

Miss Wells closed her eyes for a mo-
ment and smiled; "I haven't quit yet,"
she said.

The accompanying picture is good of
her.

"The Royal Baking Powder is a cream
of tartar powder of a high degree of
merit, and does not contain either alum
or phosphates, or any injurious sub-
stances."
